

# California Public School Directory, 2008-09

Many find this directory, now in its eightieth year of publication, invaluable for a number of wide-ranging uses. California's 9,000 + public schools as well as the school districts and county offices of education across the state are listed in this highly useful, annually updated directory. School and district addresses, telephone numbers, fax numbers, grade spans, and enrollment are included, and key personnel for county and district offices are listed.

In addition, colleges and universities, education commissions and councils, and regional occupational centers and programs are included.
